

TGS CT FRAMEWORK

Counter Terrorism, Intelligence and Security Consultancy

TGS intelligence and security consultants and their Prevent branch (SISO) are BME experts who focus on protecting people, organisations , assets and networks against internal and external attacks by building tailored and innovative resilience to counter and mitigate such threats. We are a proactive team with distinct techniques to capture a wild imagination mind , making sure our projections are inescapable. In the event of a crisis , a breach or an attack we ensure that measures are in place to respond rapidly in order to minimise eventual impact. Our experienced professionals have unique strategies , tactics and techniques that organisations can adopt to heighten their security posture wherever they operate. Our unique addition of Project as a stand alone strand to make up SISO 5Ps strategy is aimed at enhancing the traditional 4Ps strand and boost our joint efforts to tackle violent extremism and terrorism from the roots through our Radicalisation Awareness Network, Deradicalization and disengagement programs.
